

ABOUT US

Picnic Heist Publishing is an independent children's book publisher focused on celebrating cultural heritage, unity, and creativity through thoughtfully made picture books. We collaborate closely with authors and illustrators to create stories that reflect a wide range of experiences and help young readers see themselves, and one another, with curiosity and care.

Our list features picture books exploring themes of family, community, identity, and belonging. As a small press, we take a hands-on editorial and design approach and support both emerging and established voices. Titles are available through major library wholesalers, including Ingram, and directly from the publisher.
